Typography Design and Font

- ✓ **Typeface**

- 3 different font family used - Title + Subheadings, Main text (2 types)
 - All the 3 typefaces used are Sans Serif

- ✓ **Point**

- Title text and sub-heading are of different font sizes

- ✓ **Line length**

- Flushed to the left

- ✓ **Leading**

- For the main text, the spacing is good

- ✓ **Tracking**

- Spacing between each word throughout the main text is consistent

Contrast

A
P

Layout Design

✓ Point

Title text and sub-heading are of different font sizes

✓ Line

For title text and sub-headings, they are not placed in a straight line but placed in a diagonal manner

All sentences in main text are placed in a straight line and thus easy to read

✓ Shape

The main images (visuals) in the poster are placed at the top right and bottom left

The arrows (visuals) are placed at the top left and bottom right

There is a border surrounding the main text

Contrast

P

Perspective and Argument

Typography is alright. Inconsistent in font sizes and spacing. Layout is good. Images and texts are arranged well. Use of contrasting colors are good. All in all, poster could do better in terms of its consistency because the poster looks a bit messy due to the fonts.

Repetition

C
A
P

Typography Design and Font

- ✓ Same font is used
- ✓ Title of each paragraph stands out
- × Words in different directions (slanted to the left & normal view)
- × Different size fonts (all capital letters vs. normal writing style)
- × Inconsistent title colour (black, blue & orange)
- × Different font type (normal vs. bold)

Repetition

C
A
P

Layout Design

- ✓ Arrows in one direction
- × Different sized arrows

Colour Balance

- ✓ Stands out
- × More than 3 colours (black, blue, shades of grey and orange)

Consistency

- ✓ Colour focus (Top: blue, black and grey; Bottom: orange and black)
- × Different alignments (left and justified)

Repetition

C
R
A
P

Perspective and Argument

There are some good design ideas put into the poster but most of the points following C.R.A.P. shows that this poster is not a good poster design in terms of 'repetition'.

Alignment

C
R
P

Typography Design and Font

- ✓ Repetitive left-alignment used for body text of the same font
- ✓ Title text could be of a larger sizing for better prominence
- × Two paragraphs (on the right column) have a different alignment (justified)

Alignment

C
R
P

Layout Design

- ✓ Graphic border used to align text with symmetrical spacing
- ✓ Subtitles in parallel alignment with graphic arrows
- ✓ Columns used for better reading
- × There should have been spacing between title text and graphic arrows for better prominence

Consistency

- ✓ Lines and paragraphs are evenly spaced

Alignment

C
R
P

Perspective and Argument

Alignment for typography design and font, the layout design and consistency of spacing between lines are paragraphs are pretty good.

What could have been improved on is the style of alignment for some of the paragraphs as some are inconsistent (justified, to the left, etc). Also, the graphic arrows next to the title text should have been given more spacing to allow the title text to be more prominent.

Proximity

C
R
A

Typography Design and Font

- ✓ Increased leading between paragraphs
- ✓ Same font family within paragraphs
- ✓ Same font colour for subtitle ('Talk Mania' in red colour)
- × Header images in different size
- × Title in different colours ('Talk' in black and 'Mania' in blue)

Proximity

C
R
A

Layout Design

- ✓ Use of multicolumn (easy to read)
- × Misalignment between columns (right side and left side)
- × Illegibility of title and subtitle (horizontal layout is preferred)

Colour Balance

- ✓ Simple choice of colours for better visual (images are only in black and blue)

Consistency

- ✓ Images are grouped together (at the top)
- × Content should only be divided into 2 columns (third column in lower middle area is redundant)

Proximity

C
R
A

Perspective and Argument

There are repeated images such as the arrow and teardrop shape. However the work does not hold together tightly due to the poor layout design. The differences between dominant part and subdominant part are not obvious that make audiences need to 'guess' which part is which.

Welcome

ACT LIMITED EXECUTIVE DIRECTOR MARY ANNE WALTON

We are proud to introduce the 20th Australian Science Festival. The Festival offers a leading role in science communication and a platform for showcasing the inspiring, innovative science that creates our lives. It is a celebration of the science that is the backbone of our society and a testament to the ingenuity of the Australian people.

Science is the heartbeat of our society and the key to our future. The Festival is a platform for showcasing the inspiring, innovative science that creates our lives. It is a celebration of the science that is the backbone of our society and a testament to the ingenuity of the Australian people.

P

Perspective and Argument

There are some obvious typography errors. Layout is good, except the fact that they have used 6 colors. Color balance is good. Consistent in placing and colors. Inconsistent with alignment and font sizes and spacing. All in all, a clean and clear design. But could do better in terms of typography and it's consistency.

Repetition

C
A
P

Typography Design and Font

- ✓ Same font is used
- ✓ Title of each important aspect highlighted
- ✓ Title capitalized

Layout Design

- ✓ Photo same design of edge cut-out (start and end)
- × Semi-circle design (left page)

Repetition

C
A
P

Colour Balance

- ✓ Stands out
- ✓ 3 main colours (purple, blue and black)

Consistency

- ✓ Main ideas are same colour as title
- ✓ Consistent alignment of photo and text
- ✓ Left text alignment

Repetition

C
A
P

Perspective and Argument

Overall this poster design is better than Poster Design 1. Page is nice and simple, easy to read and is eye-catching. Suggestion is to remove the candy looking layout design (on both sides of the page) and the semi-circle (on the left side of the page).

Alignment

C
R
P

Typography Design and Font

- ✓ Repetitive left-alignment used for body text of the same font
- × Title text 'Feature Events' are not spaced between the words

Layout Design

- ✓ Body text is left-aligned according to graphics and pictures
- ✓ Columns used for better reading
- × Some curved edges of the photos look out of place when accompanied with the body text, forming an uncomfortable alignment at the edge

Consistency

- ✓ Lines and paragraphs are evenly spaced
- ✓ Pictures are evenly spaced

Alignment

C
R
P

Perspective and Argument

Overall alignment of this design is good.

The only flaws in this design are the absence of spacing in the title text 'FeatureEvents' and the curved alignment of the body text on the 'Welcome' page. It would ease reading and make the design a whole lot better if the body text had a straight left-alignment as opposed to the curved alignment.

Proximity

C
R
A

Typography Design and Font

- ✓ Increased leading between topic paragraphs
- ✓ Bold for all subtitles

Layout Design

- ✓ Clustered visuals and texts
- ✓ Use of multicolumn (easy to read)
- × Unbalanced header and footer space
- × Unbalanced visuals and texts (circle patterns on left side of left page seem to interfere with the main content)

Proximity

C
R
A

Colour Balance

- × Images should be arranged according to colour tone

Consistency

- ✓ Images are grouped together

Proximity

C
R
A

Perspective and Argument

This poster design is more successful than the previous poster design. The layout and texture are organized properly and it gives a clean look. Related items are grouped together accordingly.
